

NEW

The NEW Vert **A200** Compressor

QUIETLY KEEPING YOUR WORLD WORKING WITH PORTABLE COMPRESSED AIR

The New A200 compressor has been designed with the user in mind by Vert, the compressor technology pioneer. **Its class-leading low noise and vibration levels, 100% duty cycle and portable frame** are all delivered from an easy to use, 'plug and play' machine.

COMPRESSOR TECHNOLOGY PIONEERS

BENEFITS

Low noise & vibration

Impressively quiet - can be sited close to point of use, for areas where low noise is an advantage

Low vibration levels - minimal impact on surrounding equipment

Air when you need it

Capable of continuous running - with a 100% duty cycle for maximum productivity

Ease of use

Simple to install - connects to standard 240V power source with quick coupling of the compressed air connection. No expensive installation required

Intuitive - control panel positioned at the front of the compressor for ease of use

Easy to operate - simple, modern design. Customisable, user friendly control panel with adjustable pressure and speed options

Compact & portable

Compact dimensions - neatly fits under a bench or in a van, with a low installation height

Easy to position - features wheels and a comfortable handle for ease of movement, can be easily re-positioned

NEW A200 TECHNICAL SPECIFICATION

Key features

Max Pressure	Max Air Flow	Power	Voltage	Weight	Duty Cycle
11bar(g)	200lpm	1.6kW	220-240V	39.5kg	100%

Product Specifications

Model	A200 air compressor	Mobility	Telescopic handle & wheels
Max current	11A	Dimensions	800 x 380 x 400mm
Max pressure	11bar(g) (174 psig)	Cooling	Oil injection, air cooled
Air out port	Quick release coupling	Noise level	62dB(A)
Options: Air filtration, preparation and receiver volume can be specified to customer requirements			

Vert is a technology pioneer, advancing one of the biggest innovations in the compressor industry for over 40 years.
